Scroll past all the comments and the top voted comment is Photoshop CS5 Portable 32bit Free Download For Windows Xp You may use any of the information in this page at your own risk, you should read the license, terms and conditions, for more info go to the top right menu link about it. Note: Any comments in this page that are not on this page actually violate the terms and conditions of this license, they will be removed and the commenter will be banned permanently from this website. Love it or hate it, Photoshop is probably the most recognisable, mass-marketed product in the history of the world. Ever since Photoshop was first released, it revolutionised the graphics world. Nowadays, you'll find Photoshop installed on any computer that has an OS installed, and nearly all computers sold today include this software in their pre-installed software. What does this license mean for you? It means that by using this software or any of the information on this page, you are agreeing to the terms and conditions. It also means that by modifying or using any of the information here, you're agreeing to abide by the license. The disclaimer text is a very important part of the license. Make sure you read it, and if you don't understand a section of the disclaimer, don't use the information from this page. You can also read the full terms and conditions at the top of this page. However, if you decide to read the terms and conditions, it's a good idea to make a printed copy, and keep it in a safe place. What? Are you being serious? Yes, I'm being serious. If you're serious too, then read on to discover just how serious I am... Why do I need this license? By using any of the information from this page, you are agreeing to be bound by the terms and conditions of the license. You should also be aware that this means you can be prosecuted for using any of the information on this page
