Now you can download Elecard MP4 Player 6.2 Full Version for Windows at sharewarehq. We offer Elecard MP4 Player 6.2 Full Version for Windows 100% safe and clean direct link download. The Elecard MPEG Player is a software that can play several video file formats, including WMV, MPEG, AVI, ASF, MOV and MP4, as well as playlists (e.g. M3U). The user interface of the program is plain and simple. You can add files to the player (i.e. create a playlist) by using the file browser or the "drag and drop" method. Thus, you can switch to full-screen mode, adjust the volume, pause, resume and stop the video, navigate back and forth within a movie, open the file source, as well as select subtitles, audio, and video streams. You can also toggle the playlist display and create bookmarks, view history records, view stream information (e.g. statistics, parameters), grab the current frame and save it to file, as well as configure advanced settings (e.g. set speed, view a graph). In the "Settings" menu, you can disable the program from running in multiple instances, enable to minimize to tray, configure file associations, change keyboard shortcuts, choose a different skin for the interface, configure playback, video decoder and grab settings, create a whitelist and blacklist for filters, reset settings to default, and more. The software uses a moderate amount of system resources and we haven't come across any problems during our tests. However, there is no help file available. Even so, Elecard MPEG Player is simple to use and we recommend you test it for yourself. Download: Now you can download Elecard MP4 Player 6.2 Full Version for Windows at sharewarehq.
