With the help of templates opened in the drawing showcase or in the prototype mode, you can quickly make important changes to the project. Reports and references make it possible to work on the project in on-line mode. The results of the work, analysis and comments can be saved both in graphic files and in pdf formats that can be exported to Microsoft Excel, Word or other programs. You can reapply files when you change team members or tasks. This is especially useful when the design is based on multiple graphic elements such as blueprints.
