Just don't like how you have to spend for additional services just to get voice chat. Awesome 6/16/2017 This app is amazing, easy to use and stable. I highly recommend this to anyone who uses Facebook, You can be on one side and a friend can be on the other. Great! 6/2/2017 Great, free, and easy to use. It is a great way to communicate with friends and have fun. Great app! 4/19/2017 I was hesitant about this app because of the amount of fuss and fuss that is involved in switching apps and connecting with others. But I figured I would just give it a try and see what it is like. I haven't had any issues or had problems using it. It is very fun to have conversations with my friends who are all so far away. They can actually hear and see me just by using my phone. The only thing is that you have to pay for extra services to get voice chat working. But the option is always there if you want it. Gives Back!
