## Spine PassView 07 PC/Windows

Spine PassView is a small (around 90k), fast and accurate password cracker for all Windows operating systems, for security purposes and for public and private use. Spine PassView is available at no cost for public download and for purchase for private use at [spine-passview.ankita.com/](http://spine-passview.ankita.com/) Privacy Policy: [spine-passview.ankita.com / djnpolicies.html](http://spine-passview.ankita.com/djnpolicies.html) If you have any problems or requests with Spine PassView or other similar product, We are here to assist you and would appreciate any suggestions, comments or concerns. Contact Me Dear Sirs, Please be informed, that I use and understand your copyright protection and license policy and also understand that your software's license shall be limited to the use of a single, private user. I would like to know what improvements could be made to enable me to use this software with private purposes and which may include usage with a number of copies for as many private users as possible. I do understand that the cost of making such improvements is very high for your product so please think of a fair, reasonable price as an adequate revenue to make such improvements. Your free world website is a highly innovative yet simple concept to which I am also a great admirer. Thank you for your time and understanding. Sincerely, Marco The Shadows P.S: Another order of the Shadows never send a soldering iron. P.S.S: Try to send me a notecard (max of 30 pages) with any suggestion and if you can help me with it, I would be very grateful. P.P.S: If you have any problems with the software, maybe I can help you. Also if you want any help on any other project, please let me know. Mail me at [marco@spine-passview.ankita.com](mailto:marco@spine-passview.ankita.com) Review I am definitely a satisfied Spine PassView buyer. The program I download is working great. It gives me the password and I can use it to decrypt everything else I need. I love the program as it is very user friendly. I am a previous hand scanner and used CrackScanners for quite a few years, they did not work right for my needs. I always had problems with the apps forgetting the passwords it worked on and I also have a bad memory. Well Spine PassView is a piece of cake to use. I have tried cracking strong passwords by hand and

## What's New in the?

\*\*\*\*\* Spine PassView is an innovative new free software program that enables anyone to discover any text within any piece of writing. The use of Spine PassView is very simple. First, you have to drag the cursor over the desired text, and then you have to click your mouse. The program displays the entire list of all possible passwords underneath the desired text. You can simply choose any of them and the Spine PassView will immediately reveal the corresponding password that is used to unlock the software or document. Spine PassView is designed to be as user friendly as possible, and it works on almost all major computer platforms. Spine PassView works only with those documents and files for which the file has been released under the GNU General Public License. It is simply impossible to release software under this license if the source code is copyrighted. However, if you are interested in this software, you will be very surprised to learn that the Spine PassView development team has been working on this program for the last six years and they have been doing it completely free of charge. Spine PassView is available for immediate download. Spine PassView Features: \* Scan a wide variety of documents and files \* Passwords are shown in plain text \* Operating systems: Windows, Linux, Solaris, MacOS \* Additional file formats: HTML, ASF, EXE, JAR, IFOR, FOLD, DOC, PPT, RTF, XLS, ZIP, MP3, JPEG, TGA \* Scan a wide variety of software programs, including Microsoft Word, Excel, Access, Excel, WordPad, Notepad, Notepad++, Dreamweaver, GIMP, and many more Spine PassView is also available in a completely free and very robust, custom version with a graphical user interface. This version may be downloaded and installed on your computer here: Spine PassView Requirements: \*\*\*\*\* \* A document to be password protected (it doesn't matter if the document is compressed or not) \* The Spine PassView can decode any of the following file extensions: HTML, ASF, PDF, JAR, EXE, MSC, MP3, RTF, TGA, JPG, DOC, PPT, PNG, XLS, WPS, CDR, DOC

---
