Q: How should I order the categories in a menu? I have the following situation: I have 5 categories of movies (Action, Horror, Drama, Comedy, Crime) and with each of them, I should select one genre (gritty, supernatural, western, etc.). Currently, I have a dropdown menu with all of them, and the values are: Action, Horror, Drama, Comedy, Crime. Is correct my ordering or I should only select one category and proceed to the next? This is my current structure: Action Gritty Supernatural Western Japanese Science Sci-Fi 0cc13bf012

In a moving video posted to Facebook, Kylie said, “Breast cancer has been in my family for as long as I can remember, and it’s something we’re extremely proud of. My mum has been battling breast cancer for years now, and as Kylie I know how heartbreaking and scary it can be.” She continued, “So when it came time to set up a fund, and to help raise money and awareness and give a voice to those affected by breast cancer, I knew that Breast Cancer Awareness Month was the perfect opportunity to turn our years of experience into action.” Watch the video below and then scroll down to read the official statement from the American Cancer Society.
