[Review] Elden Ring Game for iPhone and Android by Reuse on 2015/01/25 This is the first time I play a RPG on my iPhone. And the interface is really good. Controls are easy to grasp, and yet the game still felt and looked really good. Although it's not graphically very impressive, it has a really nice touch. Although the actual RPG part is a bit below average, it's still fun to play. It's pretty good, and I'd recommend it....Collapse The RPG of my heart by koosh on 2015/01/25 Overall, I enjoyed this title. It was a lot of fun, and the story was very creative. I find the gameplay a bit lacking in comparison, but when there is a story like this, it's still not a big deal. In my opinion, it's worth the money. What's not to like?...Collapse Elden Ring Review by Recuperada on 2015/01/25 Elden Ring is an RPG that uses a real-time strategy approach to the genre. Rather than fighting battles as you would in World of Warcraft, you first build up your characters and then move on to a dungeon to plunder. It's a good implementation of a real-time strategy game, and it plays out fluidly. The game allows for the precise placement of units by using the X, Y, and Z axis. This is a plus as it provides enough customization options. It is a first-person perspective, so you are able to get a glimpse into how it would appear if you were controlling each character. It gets repetitive at times and lacks in interesting side quests, so it may not be for everyone. Nevertheless, Elden Ring gives a creative and engaging story line, and the gameplay is fresh and interesting. If you are looking for an RPG, Elden Ring is not your best choice, but if you enjoy a real-time strategy game, it's perfect for you....Expand Elden Ring game by Square Enix is a pure medieval real time RPG. I do not own a console but I have an iPad so I have to use a emulation app to play this game. I've played a long time with Final Fantasy Tactics Advance and know how to appreciate an good battle system when I come across it. I'm not very disappointed by Elden Ring game. I'm on level 55 and the
