"I was a little let down at first, but after I played the game a few times it started to get better and better. On the first playthrough, you're given a basic sword, a shield, and a few other items, but there's still plenty of things to do and explore even after you gain your first weapon. The gameplay is different from most RPG's, because for the most part you're not gathering experience points to level up, or anything like

that. You earn experience by creating your own style of gameplay and depending on how you beat enemies, and how your enemies get killed. It's fun and the world is amazing. So what are you waiting for? Go be a Tarnished Lord!" "I played the first 1-2 hours of this, and ended up getting frustrated by a lack of information on how to tell people about this game on Steam. My immediate assumption was that this is a Kickstarter exclusive game...and I was wrong."
