Dive into the universe in Super Space Galaxy, the first space shooter from Kenneth Dunlop. With no particular focus, Super Space Galaxy embraces a unique, open-world design. Not only does this give you the freedom to choose your own story, but it also allows for thousands of different endings. You can even create your own art and missions if you've got a powerful enough PC. Your choices will alter the fate of the Universe. What's new:

's Goes Up In Smoke While Fox News has adjusted its public persona to accommodate a new media landscape, its presence in Boise still means that there's room at the banquet table for a few of Boise's alternatives. Sunday evening, for example, I watched live as fire consumed a business on the East Side that's been around at least since 1933, when it opened as the "Grand Opera House." This nondescript, three-story brick building — in which the Union Gospel Tabernacle and the City Opera have performed — is a significant part of the local arts scene, and for several years it housed the Portia's Theatre Company, which produced plays like Anyone Can Whistle and The Merchant of Venice. (It now houses the Noel Neel Dance Theatre.) It's where Kristi Rohman, 20, got her start at the Korunnai club troupe, the same place that will host a showing of The Autobiography of Malcolm X for the first time this year. Union Gospel Tabernacle, which occupies the top floor, will be hosting a groundbreaking ceremony for an expansion and renovation later this year. Today the fire took the roof and collapsed a wall at the back of the building; a fire diver-extinguisher for Boise was tied up at a local movie theater; and a house next door suffered smoke damage. One resident told me later that a power outage may have been responsible for something odd that may have created yet another fire in the area. I think about Boise's version of Fox News everyday. Every day. And I'm not complaining. I'm a local. I know Boise. And I know that Boise is where the best of television and radio is created. But at the same time, I recognize that it has, in the past, allowed a toxic echo chamber to flourish. Fox News isn't unique, and it isn't the problem. It's just that it's a Fox. It's the same in other cities, too. Every day we hear how well Cleveland's local sports team is doing, or in New York how well the Mets have played, or in Phoenix how the Coyotes have improved. But how often do we hear how badly the Cleveland Indians are doing? How often is the Arizona Cardinals' quality ranked ahead of the NFC East? And why in heaven's name are the

Welcome to the classic shooter game! This is the first game that stands out for it's music. But, this is not for them:) In this game you can choose between three characters: 1. The main character, who is your weak fighter, but also can be used to block. 2. The tank, which is the most powerful, but also the most clumsy character in the game. 3. The armored, who is more balanced than both other two, but also the most heavy. The games are composed of various levels, which are connected by corridors. You also can find a lot of traps in the areas, which you have to enter to reach the next level. During the time, enemies will be coming from all sides and will try to attack you. It is necessary to use all your weapons: 1. The normal guns and the shotgun for mid range enemies 2. The armor cannon, which fires out a devastating blast. 3. The launcher for strong enemies in the air. 4. The and the crowbar for the weak opponents at the ground. After clearing the area, you will receive bonuses, like extra lives, guns or special weapons.
