it's an independent company which means that it's constantly updated and develops new features. This tool has a lot of rich features which are not available in most of other programs, it's a perfect fit for those companies which wants to manage their business in a easy, fast, safe way. The only problem with this program is the cost, but this tool is a must to have for all of your business needs. mxh @ 2013-05-16 10:42:28 Fitorg, to be honest, is not a program. It is a bunch of functions. You have to do all that yourself. Neither the client is told what he has to do (to get a new membership, for example). There is a great notion that it is an app, but that is not true. It is a replacement of MS Access. I tried to like it, but couldn't. vady @ 2013-05-18 21:52:51 Good Prasanth jolly @ 2013-06-02 18
