

A circle among squares is the simple idea of survival and shooting as many enemies as possible in a given amount of time. This is not a good idea. This is not a very entertaining idea. This is not even a complete idea. It turns out that anyone who had played a bullet hell game could think of this. The mechanics are the most basic, and yet it's very challenging. The goal is to go through all enemies as fast as possible, without getting killed. This is the challenge. If you think you can beat me, go ahead. If you are good at making games, please submit a patch to this game. If you are a bullet hell maker, please make a sequel and support t a game which isn't very good. If you want to improve this game, go ahead. Don't buy this game. If you like this game, please take a moment to review it on it's official page. I must admit that I wasn't expecting anything from this one. Perhaps the reason why is because I know the book I needed to read in high school (The Great Gatsby). Also because the last time I read anything decent by Faulkner was when I read The Sound and the Fury. But it's such a good book. It's both sad
