They pick on Aaron for his response to the "Night Of The Living Dead" finale, discuss what they think about the series, the ending, and why they really love the show, how they think Season 4 could go, and more! Watch more Danny Drift videos: Show Notes: Ever wonder how the anti-apocalypse story of "Night Of The Living Dead" could have been a game changer and a real life engine for zombie-related pop culture? The answer is this interview with current writer and director John Russo. The interviews are an invaluable resource because they discuss how Romero made an epic film that was part of the biggest pop-culture phenomenon of the late 20th century. What have "Living Dead" comics been doing for the past forty years? How many spin-off comics are there and why? If you go read "What is Your Story?" you'll learn what's actually been going on behind the scenes of "Living Dead" comics. And if you've ever thought about writing a zombie comic, check out the "Will Write For Food" panel and what this blog has to say about the process. What do we mean when we talk about zombie books and movies making a difference in society? Here's what's been going on behind the scenes of the production of a series of short films that portray people interacting with zombies in the theater, supermarket, and prison.Field of the Invention The present invention relates generally to time-stamping and, more particularly, to a system and method for automatically detecting a scene change in order to time-stamp and synchronize timestamped data segments. Description of the Related Art Automatic time-stamping systems are known in 0cc13bf012

I have three tables with the following structure tbl_live_event: +id +name +lifetime +status +starts tbl_submission: +id +name +x +y +z tbl_submitter: +id +name I want to use an insert query to insert a row into my tbl_live_event table by adding all the values from tbl_submissions for a given name from tbl_submitter. So far this is what I have, but I am getting a syntax error. INSERT INTO tbl_live_event (id, name, lifetime, starts, status, comment) VALUES (NULL, \$name, \$time, NULL, \$status, \$comment); ' A: This should be something like this \$name = mysql_real_escape_string(\$_POST['name']); \$time = date('Y-m-d H:i:s'); \$status = mysql_real_escape_string(\$_POST['status']); \$comment = mysql_real_escape_string(\$_POST['comment']); \$sql = "INSERT INTO tbl_live_event (id, name, lifetime, starts, status, comment) VALUES (NULL, '\$name', '\$time', NULL, '\$status', '\$comment');"; mysql_query(\$sql); President's Message At
