

Dr Kashi Ram Homeo Books [PORTABLE]

you should also look at why it is that homeopathy is primarily used by people suffering from emotional disorders and hence there is no evidence of the effectiveness of homeopathy in curing the illnesses which concern you. after the first good diagnosis, i would recommend the homeopathic misology of dr k. sharma. if you would like to know more about this medicine, i have also started posting facts and information about it on my blog; however, with your limited understanding of homeopathy and how silly you look in trying to debunk it, you have tried to sling mud. i would have sent you an email to point out you are not actually helping the cause you are trying to defend. well it's not about stupidity, i dont know how you think but getting educated about a subject, observing the world around us, getting inspiration from it and thinking out of the box which is required to make such medicines, is not being silly, unlike the ones who think they have all the answers. ok, i will provide you this proof i have the chance of being so naive. i will be online and will publish the real name of a friend who is a pharma company employee, with whom i have spoken the last 7 days. i have nothing against his employer or the company, and i'll not name it here. i'm not looking for popularity, as it would only harm the cause. in fact, his attitude has been exactly opposite to what is required of us. since i do not know for sure, if i say he is active in selling homeopathy, you might accuse me of being a paid blogger, that's fine. i dont care. i'm being frank, all i know is he is very active in homeopathy selling, as i have lots of stories from him. i am only repaying the favour.

Dr Kashi Ram Homeo Books

medicines have always had a problem to get approved by various concerned government departments, since their inception. today, even popular drugs like viagra or its generic are not sold because they do not follow the guidelines and regulations which are in place. not all homeopathy companies have these licenses. those that do are mostly small homeopathy manufacturing companies who cannot afford the time or money to get the license and just look the part. if the patient is taking homeopathic medicines, then he has to fill the on-line form prescribed by the companies. all the homeopathy companies are looking for are the names and the dosages of medicines. no other tests are done. the canadian homeopaths charged "kill your doctor, become a homeopath" at the williams institute conference in san francisco in march 2006. they have demanded that homeopathic alternatives to conventional medical treatments be recognised as medicine. homeopaths are trying to define themselves against conventional medicine. they are trying to "fight" the conventional therapy, instead of integrating with it. the biggest problem with homeopathy is that it has no scientific basis. it ignores the fact that a human is a complex system that is unable to absorb anything from outside the body. the solution is not to suppress it's function in the body. if we try to suppress the functioning of the immune system, we will have increased susceptibility to many diseases. homeopathy is a mental illness. it is nonsense, and it should be rejected. this article is the best example of ignorance ever known. it is full of errors, and the author has done his best to try and support homeopathy. it is also a terrible insult to the medical profession. it is a very good way of telling people to do nothing to prevent many diseases. 5ec8ef588b
