Jan 7, 2019 - Review: Undercover Girl is a 2D side-scrolling action game in the style of 1980s arcade classics like Kung-F* Master, Final F*ght and . well, you get the idea. The gameplay is simple -- you jump on an opponent and click on him to hit him. Sometimes there are shields to cover you. If they are shields, you can click on a shield to destroy it. As an attack, you can shoot your opponent if he is at a distance (bullets appear on the screen so you know you hit the

target). You can use combos to give the enemy a hard hit. If you get a combo, the enemy goes into a rage and you can quickly attack him.
