## HD Online Player (codigo De Registro Para Ultraiso 9.5)

Roblox was founded in 2004 by David Baszucki and Erik Cassel, with the intent to create a platform that enables users to program and play games. The Roblox platform currently hosts a range of games, including first-person shooters, racing games, role-playing games, and multiplayer online battle arena games. Users create games using only a text editor, and games that are submitted to the Roblox website are then approved or rejected by Roblox staff. The platform first gained prominence in the late 2000s. In April 2011, Roblox released the multi-billion-dollar action-adventure game Book of Life, which was the first video game produced by a major publisher to be released on the Roblox platform. Roblox is unique among video game platforms because it focuses on self-expression rather than graphics, and users are the primary game authors. In early March 2020, Roblox began shutting down most of its websites and services, citing concerns over the COVID-19 pandemic. Roblox states that its users will be able to continue downloading games, but only for personal use. It will not be hosting user-created games for others to play. After Roblox announced this decision on March 4, 2020, the site saw a massive surge in user activity. As of March 5, 2020, the site received over 700,000 daily active users. In May 2020, the website resumed its operations in the United States.
